Secaucus, New Jersey – August 9, 2017 – The Children's Place, Inc. (Nasdaq: PLCE), the largest pure-play children's specialty apparel retailer in North America, today announced financial results for the thirteen weeks ended July 29, 2017.

Jane Elfers, President and Chief Executive Officer, said, "We continued to deliver outstanding operating results in the second quarter. Comparable retail sales, gross margin, operating margin and earnings per diluted share were above last year and exceeded the high end of our guidance range. Our second quarter comparable retail sales increased 3.1%, on top of a positive 2.4% comp in the second quarter of 2016 and store traffic showed sequential improvement compared to the first quarter. We saw increases in ADS driven by higher AUR and UPT, as well as merchandise margin expansion in the quarter. And, we repurchased \$25 million in stock and paid \$7 million in dividends in the quarter."

Ms. Elfers said, "Our results are indicative of the significant progress we have made against each of our strategic growth initiatives - superior product, business transformation through technology, global growth through alternate channels of distribution and fleet optimization - all of which are supported by a best-in-class management team. Within our digital transformation initiative, we are intensely focused on developing and implementing a robust Personalized Customer Contact Strategy."

Elfers continued, "Gymboree's recent bankruptcy, and the liquidation of 330 of their stores, presents a market share opportunity for The Children's Place. We are directly co-located in 216 of those locations and we have experienced sales and traffic lifts in those stores since the Gymboree liquidation began on July 18th."

Ms. Elfers concluded, "Although we are only a couple weeks into the key Back-to-School selling season, we are encouraged by our early results. Our product clearly continues to resonate with our customer."

Financial Results

The Company's results are reported in this press release on a GAAP and as adjusted, non-GAAP basis. A reconciliation of non-GAAP to GAAP financial information is provided at the end of this press release.

Second Quarter 2017 Results

Net sales increased 0.6% to \$373.6 million in the second quarter of 2017. Comparable retail sales increased 3.1% in the second quarter of 2017.

Net income was \$14.3 million, or \$0.79 per diluted share, in the second quarter of 2017, compared to a net loss of (\$2.0) million, or (\$0.11) per diluted share, the previous year. Adjusted net income was \$15.6 million, or \$0.86 per diluted share, compared to an adjusted net loss of (\$0.2) million, or (\$0.01) per diluted share, in the second quarter last year. This \$0.87 increase in adjusted net income per diluted share includes a \$0.68 benefit resulting from the new accounting rules for the income tax impact on share-based compensation.

Gross profit was \$128.4 million in the second quarter, compared to \$123.9 million in the second quarter of 2016. Adjusted gross profit was \$128.7 million in the second quarter, compared to \$123.9 million last year, and leveraged 100 basis points to 34.4% of sales, driven by increases in AUR and merchandise margin resulting from strong product acceptance and inventory management, inclusive of the impact of the increased penetration of our ecommerce business which runs at a lower gross margin rate.

Selling, general and administrative expenses were \$108.2 million compared to \$107.9 million in the second quarter of 2016. Adjusted SG&A was \$107.6 million compared to \$107.9 million in the second quarter last year and leveraged 30 basis points as a percentage of sales primarily as a result of decreased store expenses, including lower store compensation expenses and credit card fees, partially offset by increased expenses related to the investment in our transformation initiatives and increased administrative compensation expenses.

Operating income was \$3.2 million, compared to a net operating loss of (\$2.9) million in the second quarter of 2016. Adjusted operating income in the second quarter of 2017 was \$5.1 million, or 1.4% of net sales, compared to adjusted operating income of \$0.1 million in the second quarter last year, leveraging 140 basis points compared to last year.

For the second quarter, the Company's adjusted results exclude net expenses of approximately \$1.3 million, compared to excluded net expenses of approximately \$1.8 million in the second quarter of 2016, comprising certain items which the Company believes are not reflective of the performance of its core business. For the second quarter of 2017, these excluded items are primarily related to expenses associated with asset impairment charges, a state sales and use tax audit settlement, a provision for foreign exchange control penalties and an insurance claim deductible, partially offset by income related to restructuring costs. For the second quarter of 2016, these excluded items related primarily related to asset impairment charges.

Fiscal Year to Date

Net sales increased 2.5% to \$810.3 million in the first half of fiscal 2017. Comparable retail sales increased 4.7% in the first half of fiscal 2017.

Net income was \$50.5 million, or \$2.76 per diluted share, in the first half of fiscal 2017, compared to net income of \$24.0 million, or \$1.24 per diluted share, the previous year. Adjusted net income was \$51.6 million, or \$2.82 per diluted share, compared to \$25.6 million, or \$1.32 per diluted share. This \$1.50 increase in adjusted net income per diluted share includes an \$0.87 benefit resulting from the new accounting rules for the income tax impact on share-based compensation.

Gross profit was \$299.0 million in the first half of fiscal 2017, compared to \$289.2 million last year. Adjusted gross profit was \$299.6 million, or 37.0% of net sales, leveraging 40 basis points compared to last year.

Selling, general and administrative expenses in the first half of fiscal 2017 were \$220.4 million, compared to \$217.1 million last year. Adjusted SG&A was \$214.5 million, compared to \$217.5 million last year, leveraging 100 basis points compared to last year.

Operating income was \$45.5 million, compared to operating income of \$36.7 million in fiscal 2016. Adjusted operating income was \$53.5 million, or 6.6% of net sales, compared to \$39.3 million, or 5.0% of net sales last year, an increase of 36%.

During the first half of fiscal 2017, the Company's adjusted results exclude net expenses of approximately \$1.0 million, compared to excluded net expenses of approximately \$1.6 million during the first half of fiscal 2016, comprising certain items which the Company believes are not reflective of the performance of its core business. For the first half of fiscal 2017, these excluded items are primarily related to charges due to a provision for a legal settlement resulting from a pricing litigation, asset impairment charges, restructuring costs, a state sales and use tax audit settlement, a provision for foreign exchange control penalties, and an insurance claim deductible, partially offset by income associated with the release of reserves for prior year uncertain tax positions. For the first half of fiscal 2016, these excluded expenses primarily related to asset impairment charges, partially offset by income associated with restructuring costs.

Store Openings and Closures

In accordance with our fleet optimization initiative, the Company closed 7 stores and did not open any stores during the second quarter of 2017. The Company ended the quarter with 1,026 stores and square footage of 4.801 million, a decrease of 3.4% compared to the prior year. Since our fleet optimization initiative was announced in 2013, we have closed 156 stores.

The Company's international franchise partners opened 6 points of distribution and closed 1 in the second quarter, and the Company ended the quarter with 161 international points of distribution open and operated by its 7 franchise partners in 19 countries.

Capital Return Program

During the second quarter of 2017, the Company repurchased 209,760 shares for approximately \$25 million, consisting of shares repurchased and surrendered to cover tax withholdings associated with the vesting of equity awards held by management. The Company also paid a quarterly dividend of approximately \$7 million, or \$0.40 per share, in the quarter.

For the first half of 2017, the Company repurchased 507,368 shares for approximately \$57 million, inclusive of shares repurchased and surrendered to cover tax withholdings associated with the vesting of equity awards held by management. The Company also paid quarterly dividends totaling approximately \$14 million in the first half of 2017.

Since 2009, the Company has returned over \$829 million to its investors through share repurchases and dividends. At the end of the second quarter of 2017, approximately \$306 million remained available for future share repurchases under the Company's existing share repurchase programs.

Additionally, the Company's Board of Directors authorized a quarterly dividend of \$0.40 per share. The dividend for the third quarter is payable on October 3, 2017 to shareholders of record at the close of business on September 12, 2017.

Outlook

The Company is updating its outlook for fiscal 2017 and now expects adjusted net income per diluted share to be in the range of \$7.23 to \$7.33, inclusive of an \$0.89 benefit resulting from new accounting rules for the income tax impact on share-based compensation. This compares to the Company's previous guidance for adjusted net income per diluted share of \$7.10 to \$7.20, inclusive of an \$0.89 benefit resulting from new accounting rules for the income tax impact on share-based compensation. Excluding the tax benefit, full year adjusted net income per diluted share guidance is projected to increase 17% to 19% compared to adjusted net income per diluted share of \$5.43 last year. This guidance assumes an approximate 3% increase in comparable retail sales for the year.

This guidance for adjusted net income per diluted share excludes year to date net expenses of approximately \$1.0 million related to charges due to a provision for a legal settlement resulting from a pricing litigation, asset impairment charges, restructuring costs, a state sales and use tax audit settlement, a provision for foreign exchange control penalties, and an insurance claim deductible, partially offset by income associated with the release of reserves for prior year uncertain tax positions, as the Company believes these items are not reflective of the performance of its core business.

The Company expects adjusted net income per diluted share in the third quarter of 2017 will be between \$2.41 and \$2.46. This compares to adjusted net income per diluted share of \$2.29 in the third quarter of 2016. This guidance assumes a low single digit increase in comparable retail sales.

Financial Results

The Company's results are reported in this press release on a GAAP and as adjusted, non-GAAP basis. Adjusted net income, adjusted net income per diluted share, adjusted gross profit, adjusted SG&A, and adjusted operating income are non-GAAP measures, and are not intended to replace GAAP financial information and may be different from non-GAAP measures reported by other companies. The Company believes the income and expense items excluded as non-GAAP adjustments are not reflective of the performance of its core business and that providing this supplemental disclosure to investors will facilitate comparisons of the past and present performance of its core business. The Company uses non-GAAP measures to evaluate and measure operating performance, including, to measure performance for purposes of the Company's annual bonus and long-term incentive compensation plans. A reconciliation of non-GAAP to GAAP financial information is provided at the end of this press release.
